

Patent Citation Watch (patents cited by examiner)

Prepared for: [REDACTED]

Issued Date: Nov 29, 2011

these are your firm's clients

Assignee / Inventor (cited)	Patent (cited)	Patent (issued)	Assignee / Inventor (issued)
Samsung Electronics Co., Ltd.	Decoding Device Having A Turbo Decoder And An Rs Decoder Concatenated Serially And A Method Of Decoding Performed By The Same 7222286	Use Of Ecc With Iterative Decoding For Iterative And Non-iterative Decoding In A Read Channel For A Disk Drive 8069397	Broadcom Corporation
Fujitsu Limited	Optical Waveguide Device And Optical Modulator 7450811	Fabrication-tolerant Waveguides And Resonators 8068706	Massachusetts Institute Of Technology
Fujitsu Microelectronic Limited	Semiconductor Device Capable Of Performing Test At Actual Operating Frequency 7484141	Semiconductor Device 8069386	Renesas Electronics Corporation
Yamatake Corporation	Process Controller, Product Information Collector, And Process Tracer 7571178	Input Device For Allowing Interface To A Web Site In Association With A Unique Input Code 8069098	Rpx-lv Acquisition Llc
Fujitsu Component Limited	Input Device Including Power Generating Device 7583254	Wireless Mouse With Power Generating Function 8067843	Hon Hai Precision Industry Co., Ltd.
Fujitsu Limited	System And Method For Saving Power Consumption By Individually Reducing Power Usage Of Each Of Plurality Of Computers To A Respective Lower Limit Within A Server System 7617406	System And Method To Establish And Dynamically Control Energy Consumption In Large-scale Datacenters Or It Infrastructures 8069359	Intel Corporation
